

20-07-01 LTL Management District
Shoreline Restoration - Tree Purchase Reimbursement Program

The Lower Turtle Lake Management District will be providing funds through the Shoreline Restoration Program to property owners for the purchase of trees or shrubs that were lost from the shoreline due to the July storm. Each owner should take before and after pictures of the site where the trees/shrubs are planted. Each owner will be allowed up to \$350.00 to purchase whatever type/size of trees and/or shrubs they would like to plant.

Before and after pictures of the shoreline changes and receipts for the trees/shrubs should be sent to Sue Rheingans (dsrheingans@gmail.com), Gary Warner (GWPacker-Backer@centurylink.net), or Deb Spring for approval and reimbursement.

Just as a reminder, we encourage you to explore the option for additional shoreline improvements still available for reimbursement. That information can be found on the Lower Turtle Lake website www.lowerturtlelake.com.
